OPTUS

MOBILESAT PRICING

The Optus MobileSat® service provides affordable mobile coverage that enables you to keep in touch, right across Australia.

With the MobileSat service you can choose from two pricing plans: VoicePlan and DataPlan. The plan which will be best for you depends on whether you use your MobileSat phone predominantly for voice or data communication.

- **VoicePlan** If you will mainly use your MobileSat telephone to make voice calls (and rarely use the data transmission facilities) VoicePlan, with its low call rates, charged in 30 second increments would be the most appropriate plan for you. With VoicePlan you also receive free VoiceMail, which gives you the convenience of a personal answering service within your MobileSat phone.
- **DataPlan** If you will regularly use your MobileSat telephone for data transmission (including PC and laptop functions) DataPlan with its 6 second billing increments, is likely to be the most cost effective plan for you.

	Monthly Service Charge•	Call Charge (per minute)••		
		National Local and Long Distance Peak	**National Local and Long Distance Off Peak**	**Optus Reward**
VOICE PLAN *All calls are charged in 30 sec increments.*	**$45**	**$1.80**	**$1.20**	**10% after $100 of calls per month** **20% after $200 of calls per month**
